In his book: "Exalting the Standard of Righteousness!"

the author outlines how God has made His requirements so attainable that only unconverted professed Christians continue in the acts of unrighteousness. When we receive Him, "to them He gave power to become the son of God". His power empowers us to exalt the standard of righteousness in our own life. It provides strength to submit yourselves therefore unto God and the strength and patience to resist the devil, and he will flee from you. By this we know that we love the children of God, when we love God and keep his commandments.

The brain like any other organ in the human body requires nutrition to be healthy. There are symptoms and illness like constipation, stress, high bloods sugar, high sodium, dehydration and high ureas in the body, including some prescription drugs that cause abnormal behaviors. Especially if a combination of the above symptoms are elevated.

In his book: **"No Healing Medicines!"** the author outlines two systems, with one providing true healing. The true, natural healing given by the Creator and as presented in the Bible. Verses the counterfeit system deeply rooted in spiritualism at its inception and now promoted as the primary way to address disease in all modern conventional medicine disciplines. He uses the medical establishment's own research papers to show that medicine cannot cure! As well as radiation and chemotherapy cause cancer!
